1. Introduction

We (Atlantic Data Ltd.) are committed to ensuring digital accessibility for people with disabilities. This document details how we continually improve the user experience for everyone, and apply the relevant accessibility standards.

2. Measures to support accessibility

We have taken the following measures to ensure accessibility of the Disclosures Manager System:

- We include accessibility as a part of our mission statement.
- We have appointed an accessibility officer.
- We provide continual accessibility training for our staff.
- We include scenarios with people with disabilities in our development process.

3. Conformance status

The [Web Content Accessibility Guidelines \(WCAG\)](#) defines requirements for designers and developers to improve accessibility for people with disabilities. It defines three levels of conformance: Level A, Level AA, and Level AAA. The Disclosures Manager System is partially conformant with WCAG 2.1 Level AA. ~~Partially conformant~~ means that some parts of the content do not fully conform to the accessibility standard.

4. Additional accessibility considerations

Although our goal is WCAG 2.1 Level AA conformance, we have also applied some Level AAA success criteria:

6. Compatibility with browsers and assistive technology

The Disclosures Manager System is designed to be compatible with the following browsers and assistive technologies:

Compatible browsers:

- Internet Explorer (IE) - versions 8.0 and above (IE 8 is supported on Windows 7)
IE 8 to IE 10 should have TLS 1.2 protocol enabled
- Mozilla Firefox - versions 57 and above
- Google Chrome - versions 50 and above
- Safari 7 and above
- IOS 5.0 and above,
