8. Year effective from	2023/24

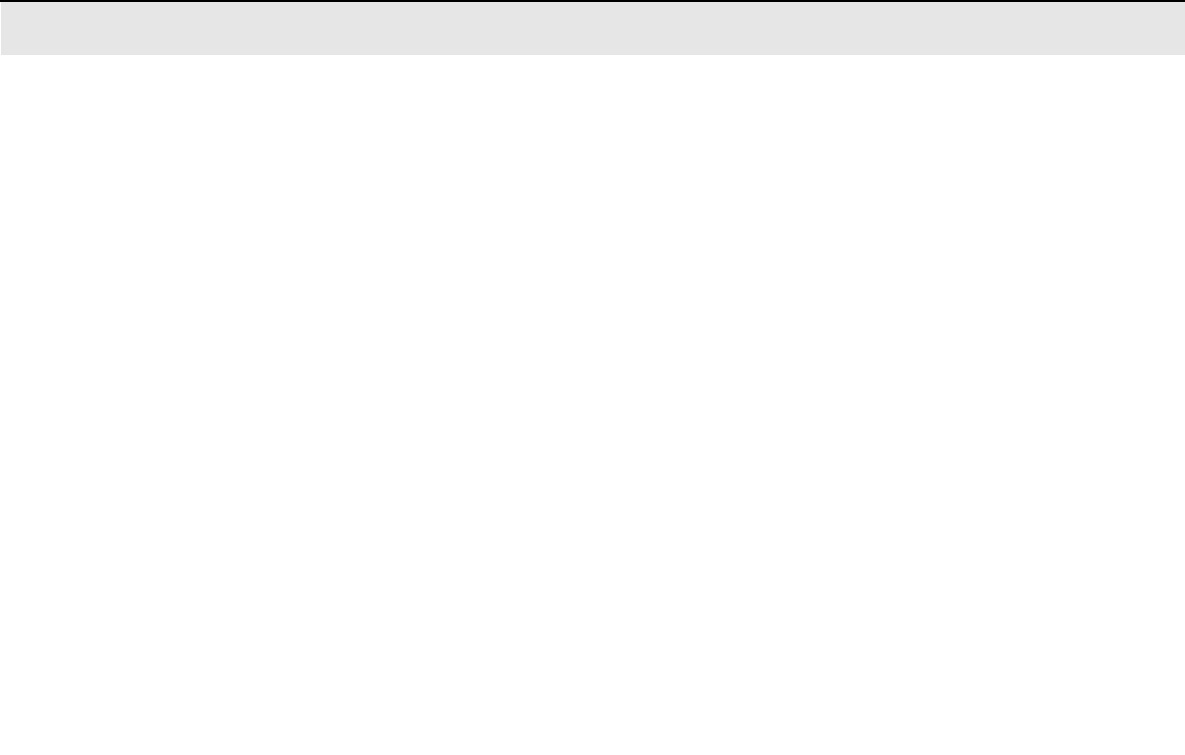

9. Criteria for admission to the programme

UK, EU and international students are eligible to apply for this course. It is very much part of our ethos that we welcome a diverse student cohort to support diverse and inclusive productions.

We also welcome applications from those who are able to demonstrate prior learning, experience or a proven significant interest in and commitment to the area of film, media, television, photography, art and design. Preferred candidates will be those who have previously studied film or media and are able to demonstrate clear evidence of

achievement, either in filmmaking or in screen studies or both, but most importantly we welcome candidates who demonstrate a clear sense of purpose and an enthusiasm for working in film and/or television or related creative industries.

The normal UCAS requirement will be 112 points (equivalent of B,B,C) please see <https://www.ucas.com/ucas/tariff-calculator> to help you calculate your tariff poin

11. Programme outcomes*

A. Knowledge and understanding

--	--

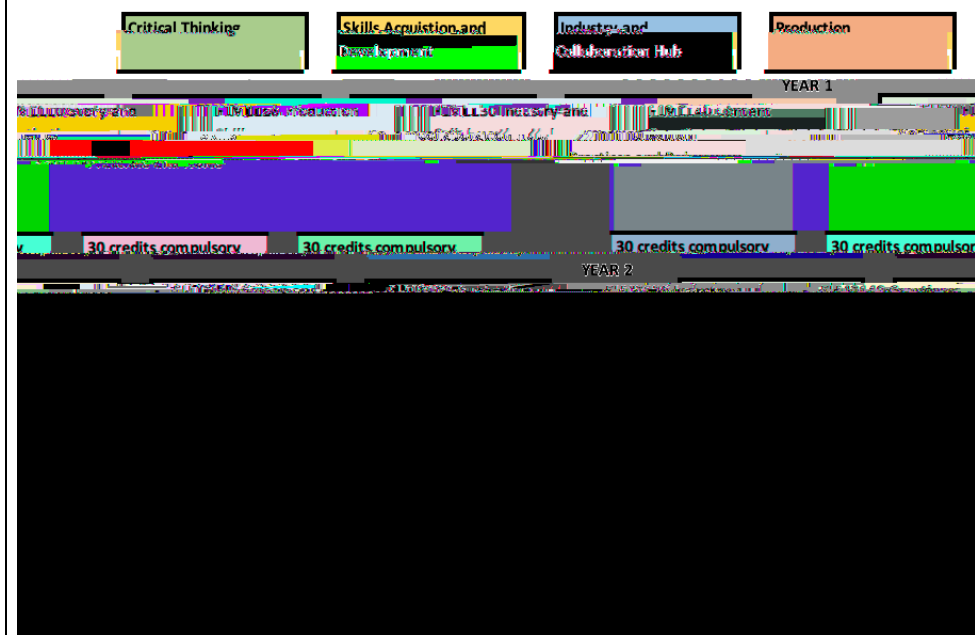

<p>5. demonstrate advanced levels of competency in screen production processes and practices to produce quality creative content;</p> <p>6. work professionally and collaboratively and deploy problem solving skills and at a high level.</p>	<p>Assessment methods Students' knowledge and understanding is assessed by presenting portfolios of their work. Some elements will be responses to briefs, others micro-credited hyflex assessments such as:</p> <p style="padding-left: 40px;">pitches, presentations and vivas; participation in workshops; evidence of engagement in collaborative projects and/or additional employability-related activities; portfolios of preparatory work, independent research and practical exercises; practical filmmaking projects; placements, collaborative projects and live briefs.</p>

12. Programme structure (levels, modules, credits and progression requirements)

12.1 Overall structure of the programme

The new programme is structured around 4 pillars: *Critical thinking; skills acquisition and development; industry and collaboration* and *filmmaking*. These run through all three years of the degree, gaining in complexity and depth.

Full-time study

All modules begin in term 1 and utilises a flexible model of delivery with a combination of structured learning blocks alongside collaborative hub spaces in the timetable for students to develop collaborative project-based learning and asynchronous independent learning.

Part-time study

We anticipate that most students will want to take the programme on a FT basis, the HyFlex approach already embeds a more flexible approach to FT study~~the~~

12.2 Levels and modules

Level 4

COMPULSORY	OPTIONAL *	PROGRESSION REQUIREMENTS
<p>Students must take all of the following:</p> <p>FLM1110 Story and Aesthetics</p> <p>FLM1120 Production Skills</p> <p>FLM1130 Industry and Collaboration Hub: Practices & Roles</p> <p>FLM1140 Content Creation</p>	<p>This programme does not have optional modules, instead, choices are available within modules in the hyflex approach.</p>	<p>120 credits</p>

Level 5

15. Future Careers/Progression

We expect to build on our already excellent record in progressing our graduates into media industry careers. The students go into entry level (r runners in production and postproduction, kit hire houses, gallery PA, researchers, assistant floor managers, sound assistant, assistant gaffers, props buying, set decorators, location assistants etc. Graduates tend to move through the production hierarchies quickly, becoming junior production managers, production coordinators, vision mixers, camera operators, focus pullers, GFX juniors.

Important to note is that our students go into diverse employment sectors - broadcast, features, commercial, corporate, campaign, advertising, music videos, social media, streaming content. Our graduates have gone on to work at major institutions such as the BBC, Granada, ILM, ENVY, Bandicoot TV, and ITV. Others have set up their own small businesses, attracting both commercial work and funded commissions, such as Speeding Films, Good Egg Media and Two Fresh Productions. We actively foster this network of alumni to support our current students.

16. Particular support for learning (if applicable)

To ensure a high quality, interactive and experiential learning experience, students are provided with the following:

- An academic adviser to help them manage their journey through Higher Education.

- Access and training to use specialist spaces (including studios, production gallery, recording studios, Digital Media Workshops, edit suites).

- Technical induction programme for the safe and professional use of all specialist equipment held at the Kit Hub.

- Support will be provided to help students crowdfund their productions at level 5 and 6.

- Access to asynchronous learning materials (including industry speakers and training, LinkedIn Learning etc.)

- Learning support and workshops organised by Library and the Learning Enhancement Team (LET); these include English language support, returning to HE, and research techniques for example.

- There is no restriction to the programme based on disability – as stated in 9 (above). Specialist support will be made available by the University for students as required by the Equality Act (2010). A needs assessor will work with a student to establish the precise support required. Where Health and Safety concerns present during the full range of learning and teaching activities included within the programme, risk assessments will be used, and all “reasonable adjustments” will be made to support all of our students.
